Columbia High School Defeats Monticello High School Basket Ball Team Friday Night.

On last Friday evening at the High School Gym the Columbia High School basket ball team defeated the fast team of the Monticello High School. The gym was crowded to its utmost capacity with enthusiastic rooters. Monticello also had a band of some twenty or more in their crowd who witnessed their first defeat in the past four years.

At the close of the first half the score stood 16 to 13 in favor of Monticello. At the end of the second half the score was a tie. The teams then played a five minute period and when the time was up the score stood 29 to 28 in favor of the C. H. S. The crowd went wild with enthusiasm. It was a victory for Columbia. This was doubtless the most exciting game of basket ball ever witnessed in this town.

The line-up for the two teams was as follows:

C. H. S.	M. H. S.
Acre	Stokes
Lewis	Denney
Antle	Tuggle
Dunbar	Bertram
Young	Jones

During the first half for Columbia, Antle pitched two goals, Acre one. For Monticello, Stokes pitched one, Tuggle two, Denney one. Second half, for Columbia, Lewis two, Acre one, For Monticello, Denney one, Jones one. During the game Monticello pitched 16 fouls out of 37 chances, Columbia 17 fouls out of 28 chances. Final score, Columbia 29, Monticello, 28.

After the game the Columbia High School entertained the young folks from Monticello and the young people of the town at the Gym. Delightful refreshments were served. A happy time was reported by all. Monticello left for home at 1 o'clock, a. m., Saturday.

It also deals with deep problems concerning the American people. Can be secured at Geo. E. Wilson's store.

The Foot Ball Game.

One of the largest crowds gathered recently in Columbia was assembled at the Lindsey-Wilson gridiron Thursday to view the big Thanksgiving foot ball game between the Kentucky School for the Deaf and the Lindsey-Wilson Team.

The appearance of the big men from Danville as they ran their signals and moved about over the field in their well equipped uniforms before the game, would have augured for them a victory at the closing down. But it was to be seen from the time the whistle first blew that the stern resistance and fierce offensive of the Lindsey boys would make a hard contest. So even was the team work of the visitors, and so powerful their attack, that more than once it seemed as though the Lindsey goal would be crossed in spite of all opposition. But the timely intervention of fate or the redoubled energy of the local boys when brought to bay, would interpose only in time to save the day.

The schedule of the K. D. S. Team this season has been mostly with colleges and universities and their playing more nearly resembled the college type than any so far seen here. Time and again the ball would be lost in the swarm of black and yellow jerseys, and the L. W. T. S. boys would be drawn to one side while the ball was going the other way. But the lesson learned from Bardstown proved of such value on these occasions that they managed each time to tackle the right man. The Columbia boys were held for downs one time when within one yard of the goal and again with the same distance to gain they made a touchdown only after four attempts.

The success of the home team lay mostly in the fact that every player realized thoroughly the proposition before him and spent all his energy in that direction. The playing of Dave Dulworth, who was a tower of strength on the defensive was very significant in his forging the ball forward for three touchdowns, while the spud of Jim Lewis advanced the ball for long gains that eventually meant scores. The tackling of Powers was at all times in evidence. The final score was 27 to 0 in favor of Lindsey. As Thanksgiving closes the foot ball season, Lindsey-Wilson will now begin developing her material in basket ball.

I have a few fine White Wyandotte roosters I will sell at \$1.00 each, 5-3t. W. E. Harris, Columbia, Ky.

It pays to handle good stock. About eight or nine months ago C. G. Jeffries and A. D. Patteson, of this place, bought a Hampshire sow in Missouri for \$75.00. A month or two after she arrived she found ten pigs. Eight of the pigs were sold for \$115. Mr. Jeffries recently bought a male Hampshire, eight months old, in Scott county, paying \$50 for him. He weighs at this time 260 pounds. When the sow was purchased it was generally believed that Messrs. Jeffries & Patteson paid a long price for her, but when you take into consideration the price realized for her products, they were given a bargain.

Greensburg Loose Leaf.

Sell your tobacco direct to the manufacturer by putting it over the floor of the Greensburg Loose Leaf Tobacco Market, and cut out the middle man's profit, and by so doing you will secure more money for your tobacco. We have buyers on our market representing the following manufacturers: The American Tobacco Co., Liggett Myers, Hale & Cotton, Luckett Wake Tobacco Co., E. J. O'Brien & Co., E. K. Victor & Co., E. T. Taylor & Co.; besides the speculative element, which will only increase the competition and make the market stronger. Without competition there would be no market anywhere. The farmer can sell his tobacco on the Loose Leaf market, and save half the expense of selling on a hoghead market.

Bring your tobacco in and we will see that you are promptly waited on. We have recently purchased a hydraulic press outfit, and will be installed in a few days, which will increase our facility for handling tobacco with more rapidity.

This market is owned and controlled by farmers, and will use all effort to accommodate its customers.

Business men of Columbia closed their houses last Thursday at 11 o'clock and every body attended Thanksgiving services at the Baptist church. The sermon which was very appropriate, delivered in a pleasing manner, was preached by Rev. S. G. Shelley, who is a very able minister, and who is the Presiding Elder of the Columbia district. A collection was taken up for orphan children, and the sum raised was divided between all the Churches of this place, to be distributed by them.

Last Thursday at Nelson & Moss' saw-mill, located near Font Hill, in Russell county, a young man named Bragg, 22 years old, was so badly hurt that death followed on Saturday afternoon. While the mill was running at full speed a belt broke, striking young Bragg in the stomach. Physicians were called and everything possible was done by skill, but death followed at the time given above. The young man lived below Gradyville, and in Metcalfe county. His remains passed through Columbia last Sunday night.

Result of the Buggy Demonstration.

The Buggy Demonstration, by the Buchanan Lyon Co., at their place of business in Campbellsville Saturday afternoon, was a big success. A large crowd of interested people, both from the country and town, was present. Messrs. A. H. Ahlbrand, president of the Ahlbrand Carriage Co., Seymour, Ind., and J. T. Tundley, the Kentucky representative of the firm, were present at the demonstration and rendered valuable assistance in showing up the superiority of their buggies.

The foreign buggy concern, that has been trailing buggies through this section, had made the statement, it is said, that the buggies they are selling are far superior to any buggy built. For the protection of our citizens, The Buchanan Lyon Co. challenged this statement by having a demonstration of the Ahlbrand buggy, which they have been selling for years, against the trailer's buggy, point for point. The Buchanan Lyon Co. proposed to leave the decision, which of the two buggies is the superior, to a committee of disinterested parties—one party to be selected by the foreign firm, one by them and the other party by the two selected—the decision of the committee to be published in the county paper. If the trailers accept the Buchanan Lyon Co's challenge and the committee did not decide that the Ahlbrand buggy, as a whole, is superior to the trailer's buggy, the local firm would pay \$100 in gold to any charitable institution in Taylor county the committee may select.

The foreign buggy concern spurned the challenge which was presented to it in a gentlemanly and impartial manner! They were too wise for that, be it said. Nevertheless, a committee of five honorable and well known men, from out in the county, were selected, which proceeded to tear a wheel from one of the Ahlbrand vehicles. The committee was authorized to select any buggy from among the many on exhibition; finally getting one of the wheels under their main force, by twisting and pulling and hammering with tools, the men slightly disfigured the spokes of the wheel. The audience was readily convinced that the Ahlbrand buggy was made of the very best material. A sample of the buggy that the trailers had sold here was also on exhibition, and remarks of the vast contrast between the two vehicles was heard on all sides, especially when the price was considered. The Buchanan, Lyon Co. is selling a better buggy for \$75 than the trailers are selling at \$110.

It was common to hear on the streets after the demonstration, that a number of men, who had bought buggies from the strangers, were very much disappointed with their trade. The Buchanan Lyon Co. went to considerable labor and expense to stage this demonstration, but that mattered not to them as long as it was protecting its customers and citizens.
